

MITIGATED DETERMINATION OF NONSIGNIFICANCE

Description of proposal: Bring It On Timber Sale, Agreement No. 30-084606 and Forest Practices Application No. 2919919. This is a variable retention harvest of 62 acres in 2 units, with 3,859 feet of road construction and 5,381 feet of pre-haul maintenance.

Description of mitigation: The following mitigation measures will be implemented with this proposal:

- Riparian Management Zones (RMZ) averaging 175 feet wide on two type 3 streams, and 163 feet wide on a third type 3 stream. These RMZ widths were determined by the 100 year site index for DF obtained from the soil survey. These RMZs have been retained to protect water quality, provide corridors for wildlife, and maintain habitat for fish and amphibians.
- Wildlife tree and snag recruitment will be accomplished by retaining a minimum of 8 trees per acre, consisting of conifer and hardwood species.
- Roads to be constructed under this proposal are located away from surface waters, and are generally located on ridge tops and gentle slopes.
- Full suspension required when yarding over type 5 streams.

Proponent: Department of Natural Resources

Location of proposal: Sections 16 and 17, Township 13 North, Range 5 West, W.M., approximately 3 miles by road, southwest of Doty, off the N-1000 road systems in Lewis County, Washington.

Lead agency: Department of Natural Resources

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

☐ There is no comment period for this Mitigated DNS.

☒ This MDNS is issued under 197-11-340(2); the lead agency will not act on this proposal for 14 days from August 10, 2009. Comments must be submitted by August 24, 2009.
